Blank Quiz Digital Literacy & Cyber Awareness Quiz

How safe and savvy are you online? Take this quick 5-question quiz to test your digital literacy skills!

Q1. You receive an unexpected email from "Bank of America" asking you to click a link to verify your account immediately, or it will be suspended. Which of the following is the strongest indicator that this is a phishing attempt? *

- It creates a sense of extreme urgency or panic.
- The sender's email address looks like support@bankofamerica-alerts-123.com.
- The email uses a generic greeting like "Dear Customer" instead of your name.
- All of the above.

Q2. Which of the following passwords is the strongest and would take a hacker the longest to crack? *

- SmithFamily2024 (Contains personal info and a year)
- Letmein123! (Common phrase with simple numbers/symbols)
- C0ff33&M0untaInB!k3s (A long passphrase mixing letters, numbers, and symbols)
- ilovepizza (All lowercase, simple dictionary words)

Q3. You see a little padlock icon and "https://" in your browser's address bar. What does this actually guarantee? *

- The website is guaranteed to be free of all viruses and malware.
- The connection is encrypted, meaning third parties can't easily spy on the data you send (like passwords).
- The website is run by a verified, trustworthy organization.
- The information written on the page is 100% factually accurate.

Q4. Every time you browse, post, or interact online, you leave behind a "digital footprint." Which of the following statements about your digital footprint is most accurate? *

- It is automatically deleted every 30 days by internet service providers.
- It only includes the things you intentionally post on public social media profiles.
- It includes both active tracking (what you post) and passive tracking (your IP address, search history, and...
- It is completely invisible to potential employers or university admissions officers.

Q5. In one sentence, what is the primary benefit of enabling Two-Factor Authentication (2FA) or Multi-Factor Authentication (MFA) on your accounts? *
